Dimensions
- Temperature range (operation): 0°C to 40°C
- Temperature range (storage): -10°C to 60°C
- Set dimensions with stand (W x H x D): 222.6 x 182.2 x 33.2 mm
- Set dimensions with stand in inch (W x H x D): 8.76 x 7.17 x 1.31 inch
- Weight: 0.34 kg
- Set weight (lb): 0.75 lb

Power
- Power consumption: (System on) 5.09 W
- Power mode supported: AC powered
- Power source: DC output 9V, 2A
- Power supply: 100-240VAC, 50/60Hz

Outer Carton
- Gross weight: 3.6236 kg
- Outer carton (L x W x H): 29.9 x 24.8 x 24.8 cm
- Nett weight: 1.8576 kg
- Tare weight: 1.766 kg
- Gross weight: 7.989 lb
- Outer carton (L x W x H): 11.8 x 9.8 x 9.8 inch
- Nett weight: 4.095 lb
- Tare weight: 3.894 lb

Packaging dimensions
- Packaging dimensions (W x H x D): 27.8 x 22.9 x 10.7 cm
- Gross weight: 1.562 kg
- Nett weight: .9288 kg
- Tare weight: .6332 kg
- Packaging dimensions (W x H x D): 10.9 x 9 x 4.2 inch
- Gross weight: 3.444 lb
- Nett weight: 2.048 lb
- Tare weight: 1.396 lb

Product highlights

4:3 perfect frame ratio
Philips digital PhotoFrame ensures your photo to be displayed in 4:3 ratio for the best viewing experience.

RadiantColor
RadiantColor is an exclusive Philips technology for displaying smaller photos in the optimal 4:3 ratio by extending the color on the edges of a less-than-full-screen photo to the sides of the screen, eliminating black bars and aspect ratio distortion.

Auto orientation
Automatic landscape/portrait recognition employs a sensor that recognizes PhotoFrame orientation and displays each photo in its proper mode.

Smart Album
Smart Album allows you to create and manage albums, as well as to set up and adjust transition effects to your photo slideshows.

Collage Pro
Remember the fun you had working with your photos in the past - such as cutting them and creating nice collections! Collage Pro is a unique and advanced feature provided by Philips digital PhotoFrame. Just like on other Philips digital PhotoFrames with Collage function, you can run collage slideshows automatically (random view). With Collage Pro, you can also edit and create collages by yourself. You can also easily create a collage even from multiples sources such as an SD card or USB pen drive.

imagen Pro
The unique Philips imagen enhancement technology automatically analyzes your photos to correct color and adjust for optimal contrast. imagen Pro is a more advanced image enhancement which includes the 3 essential elements from imagen to have more color accuracy, color depth and smart contrast. On top of these, imagen Pro offers enhanced skin color, sharper images and flicker-free photo viewing which is very important for still pictures.

Real wood with natural grain
There are plenty of digital photo frames in the market with ugly, gadget typ designs. They won't fit my home interior at all. Now, Philips comes with a PhotoFrame with a real wood front with a warm color and natural grain which perfectly fits the simple and clean rear cover design. It not also suits your home decor but brightens up any room!

Unlimited memories
Your Philips PhotoFrame comes with an additional SD card slot enabling you to expand the storage space on your PhotoFrame offering plenty of space for all your memories - it's like having virtually unlimited space for your memories and photos! Also thanks to the Philips Memory card manager, you can easily copy and paste images between all your various types of memory cards.

Smart Power Pro
Smart Power Pro is a sensor that turns PhotoFrame on and off by detecting ambient lighting condition reducing energy consumption for the sake of our environment saving up to one third of your PhotoFrame energy costs. The best news is that this is all done automatically!

PhotoFrame Manager
You can easily connect your Philips PhotoFrame to your computer via a USB cable. The PhotoFrame Manager is a simple to use drag and drop software tool that allows you to simply drag your photos from your computer to your PhotoFrame - it's really that simple! On top of this, the software enables simple editing like zoom and crop. You can even preview what you have edited before transferring to your PhotoFrame.
